**DIOCESAN PRO-LIFE COMMISSION**

"For married couples, Natural Family Planning (NFP) works! Yet, many married couples remain unaware that modern scientific methods of NFP enable them to space the birth of their children and, for sound reasons, limit the size of their family, in a way that is lovingly obedient to Jesus Christ and his Church, while avoiding the sin of contraception. For single people, abstinence works! The steady decline in rates of unintended pregnancies and abortions in the United States has been driven primarily by more teens remaining abstinent ... There is now plenty of evidence that many school-based abstinence programs help teens postpone sexual activity. Studies show that the best way to protect children from the dangers of contraception and pre-marital sexual activity is by having two parents who make their values and expectations clear, and who participate as a family in religious and leisure-time activities."

### YEAR FOR PRIESTS

**This Week's Quote from the USCCB Web Site.**

*The great message that we have to carry, as ministers of God's word and followers of Jesus, is that God loves us not because of what we do or accomplish, but because God has created and redeemed us in love and has chosen us to proclaim that love as ...the true source of all human life."*

-Father Henri Nouwen
